MEMORANDUM FOR: Acting Director of Central Intelligence

FROM: Eloise R. Page  
Deputy Director, Intelligence Community Staff

SUBJECT: Overt Exploitation of S&T Open Source Information

1. You are aware that the STIC and HUMINT Committees have recently published a report on "the processing of overtly collected scientific and technical intelligence information," which examines the problem of the exploitation of open source information in the S&T fields and contains a number of recommendations which should materially improve the situation with regard to this important process. The report recommends an Executive Steering Group which will oversee the implementation of the various recommendations.

[REDACTED] 25X1

2. As you know, as a part of our work following the off-site conference (attachment), we recommend the establishment of an Executive Steering Group comprised of the Chairmen of STIC and HUMINT Committees, the NIO/S&T, the Executive Director of CIA, and a senior DoD official (because of the heavy involvement of FTD in this field).

[REDACTED] 25X1

3. Attached for your signature are memoranda to the proposed members of the Steering Group establishing such a group and a letter to Jim Williams asking that he designate a senior officer to participate.
